Washington, Sept 12—Acting Chairman Tucker has called a meeting of the committee on election of president and vice-president and representatives in congress for this morning to consider the various bills introduced for the repeal of the federal election laws. It is hoped by the leaders of the house that a report will be made from the committee to the house at its session to-day, so that the consideration of the subject may be proceeded with of the subject may be proceeded with at the earliest possible date. The bill that meets with favor is the

one introduced by Mr. Tucker, which is somewhat more (comprehensive than the others. It provides for the repeal of the following sections, under the title "Election Franchise," of the Re vised Statutes: 2202 and 2205 to 2220 in clusive, relating to the appointment, qualification, power, duties and com-pensation of supervisors of elections; pensation of supervisors of electrons, also sections 2221 to to 2231 inclusive, of the same title, relating to the appointment, qualification, power, duties and compensation of special deputies, also sections 5506, 5511 to 5515 inclusive and 5520 to 5523 inclusive of the title of "Crimes," also the following portion of section 643 "Or is commenced against any officer of the United States or other person on account of any act done under the pro-visions of title 26, the elective franchise, or on account of any right, tatle on authority claimed by any officer or other person under any of said provisions."

RAISING REVENUE.

The Veteran Tariff Reformer Tell How To Do It.

DISTILLED AND PERMENTED LIQUORS

Increase the Receipts from \$181,-000,000 to \$245,000,000, With-

WASHINGTON, Sept. 12.—Hon David A Wells, the veteran tariff reformer, has submitted a lengthy report to Secretary Carlisle in answer to his re-Secretary Carinne in answer to an appear of quest for an "opinion as to the expediency, from a strictly revenue point of view, of maintaining or changing the present internal revenue taxes or distilled spirits, malt liquors and to

baccos."

Mr. Wells'conclusions are as follows:
"The wisest fiscal policy of the government, certainly for the immediate
future, would seem to impost the
maximum of taxation on distilled
spirits, fermented liquors and tobacco,
that will not oreate, in the face of
efficient administration and sovere penalties, undue temptations
for revenue evasions. In the case of
distilled spirits on which the existing
rate under the most favorable conditions of production, is always in excess of 300 per cent. of their first cost
or taxable unit, this line seems to have
been absolutely ignored, but as the expenionee of recent years shows that perience of recent years shows that the revenue from this source is increas-ing in excess of the increase of popu-lation, and the amount of illicit lation, and the amount of illicit products comparatively small, any change in the present tax would seem clearly inexpedient. On the other hand in the case of fermented malt liquors and tobacce the existing taxes are far below the safe line of expediency and might be advanced—i. e. to the extent of one dollar per thirty-one gallons, or one-fifth of a cent on the half-pint—in respect to the former—and the latter at least to the rates imposed in 1832, at least to the rates imposed in 1892. with great advantage to our national revenue and to a greater simplification of our whole fiscal system. Certainly. existing and extraordinary revenue requirements for expenditures are needed, it would be difficult to show where

diate annual increment a certain large annual increase of the same in the near future, could be ob-tained with less expense and poular friction than by the tax modifications suggested
"The existing customs duties on the

Thus, on imported spirits the duties are two dollars per proof gallon and the revenue tax eighty cents; on fermented liquors the relative rates are twenty and three-twenty and three-twenty and three-twenty and three-twenty and three-twenty deliberative rates are twenty and three-twenty and three-twenty and three-twenty are twenty are twe ty-fifths cents per gallon; on snuff and thewing and smoking tobacco, fifty, forty and thirty conts, respectively. "In the United Kingdom, where the

productivity of taxes has been care-fully studied, the customs duties exeed the excise (internal revenue taxes upon beer by sixpence (twelvents) on thirty-six gallons, and upon spirits by fourpeace (eight cents) per proof gallon. One effect of the main on imported spirits is that a greater opportunity is offered to operation through domestic producers to advance logic of the finding is that military discipline requires a solider to vaccute orders right or wrong, and the refusal to find him guilty on two rounts covered by the decision of the au preme court shows that the court-martial be lieve the orders were filegal —Mr Albort 9 Wills, the new minister to Hawnit received his instructions from Secretary Greenau yesterday, and left for his households in Louisville, Ky, to make his preparations consumer is induced to use in place of the genuine article and the govern-ment is defrauded of the difference in relative taxation and thus is believed

Mr. Wells estimates that by the chinges he proposes, the internal revenue from fermented liquors would be increased from \$33,000,000 to \$64,000,-000, and from tobacco from \$32,000,000 to \$00,000,000. Also that the customs revenues from imported spirits, wines and beer, would be increased from \$9,000,000 to \$10,000,000, and from tobacco \$13,000,000 to \$16,000,000 The aggregate modities he thus estimates would be increased from \$181,000,000 to \$215,000,

"It is therefore obvious," he says "that from taxes judiciously imposed on only three commodities of the branches of industry, the federal government can at the present time certainly, economically and with less harden and disturbance to its people than by any other form of levy, collect an annual revenue sufficient to defray all of its ordinary expenditures, in-cluding interest on all its debts, and have in addition an annual surplus of nearly \$50,000,000, leaving its total revenue from other sources-i. e . import duties less those collected from spirits beer and tobacco, and receipts from permanent miscellancous sources, aggregating \$9,000,009, available for the payment of pensions and for other pur

FAMINE AT THE FRONT.

ARKASAB CITY, Kan., Sept. 11.—Every available camping ground about the city has filled up since Friday night. Newspaper men who went through the Oklahoms rush say that the crowd greatly outnumbers that memorable event. It is almost impossible to grt anything to ear at the hotels or restaurants, and every vacant place in town is filled with cots, and many have been combaled to sleep in doorways and combeled to sleep in doorways and streets. A party of wheelmen, about thirty in number came in from Kansas

City and Topeka yesterday.
The greatest dissatisfaction exists to the registration system which is causing so much discomfort and suf-foring, and the interior department is bitterly condemned for its action in locating booths on the strip away from water and shelter. The troops are un able to control the "sooner" move

ment, and many say that registration will only aid the "sooners." This morning Nora Wiley, aged 14, secured a tray and two cups of coffee and started to the booths. Men gave way and when she finally reached the egistration booth she placed the tray on the desk and said: "Mr. Clerk, I am an orphan, and therefore the head of my orphan, and therefore the head of my family, and I want to register for a town lot." The men at first looked blankly at her and then set up acheer. The clerk gave her the coveted certifi-cate which she taiumphantly waved as she passed through the living walls of

the Suppression of Prize Fighting the Military to be Sent to the Supreme Court.

INDIANAPOLIS, Ind., Sept. 12—The legality of the suppression of the Roby prize fights has been disputed by the Columbian Athletic club, and the question will be settled in the supreme up for the consideration of the bench of last resort in the way of an applica-tion on the part of the club to set aside the receivership granted by Judge Gil-lette, of the Lake circuit. This docu-ment, which is very voluminous, was filed by Attorneys E. D. Crumpacker and John B. Peterson, counsel for the appellants in the office of the clerk of the supreme court yesterday. It alleges that there is manifest error in the proceedings granting the receivership, and asks that the decision of the lower court be reversed on the grounds "That the complaint of the appellees in the for-mer action does not state facts sufficient to constitute a cause of action, and that the court erred in appointing a receiver in aiding the cause."

With Charges and Counter-Charges, Results in Threats to Run Cheap Excussion Trains-The Freight Traffic Shows Improvement.

Chicago, Sept 11—A regular hornets' nest has been started up in the Western Passenger association and members are flying at each other with charges and counter charge. The result of the whole will probably be a further reduction in World's fur rates. The immediate cause of the present trouble is an advertisement of the Santa Fe which appeared in the Topeka pupers, announcing that members of the Kansas chorus that are coming to the celebration of Kansas week at the fair would be admitted to the fair grounds free. That is an arrangement of the fair directors but the advertisement has been taken rangement of the fan directors but the advertisement has been taken as offening free admission to the fair grounds for everybody The Santa Fe is also necessed of having domated through a local shipper at Leavenworth \$150 to the chorus members from that place and by so doing persuaded them to cancel an arrangement they had with the an arrangement they had with the Burlington for transportation over that road The Santa Fe officials say that road. A drop of Jersey musk will reach just as far and last just as long as a drop of the most aristocratic article at the St. Nicholse Hotel, first door west that ever came from Asis. A lady car rying a drop of the imported musk to church with her will not make the con-gregation a bit sicker than if she had included some of the home-grown insinuated some of the home-grown stuff into her garments. Neither wil the high-collared youth who sits down next to you at the theater, exhaling reminiscences of an Asiatic musk dec velopment work is being pushed ahead bunt arouse within you any greate impulse to sweep down upon him like an army with banners and dust the floor with him than will the same young man if he is simply exhaling a pervading suspicion that there is a muskrat hole hard by. Then I say, what's the use. There ain't any. No one can tell the difference, and I keep the home article. Some of the finest and most delicate colognes I sell to day get their pungency from the aromatic secretion of the muskrat of the Jersey marshes. I mention myself; but if I should place one hundred New York druggists in a bunch and let you chuck a stone at the bunch you couldn't hit a man in it who doesn't have just as intimate relations with the Jorsey muskrat ap I have."

"Then," said the information seeker, "the Jersey men who hunt the muskrat must make a nice thing out of it."

"As far as it goes, yes," roplied the druggist. "But as ten or a dozen pair of muskrat pods will make enough extract to last a year in any drug store with a fair trade in perfumes, there might be more money in it for the hunters than there is. "But then, you see, the musk pod isn't all there is to the muskr. Ho is an animal of muskr. Ho isn't an animal to the muskr. It is not an interest than there is. State Purchases the Penitentiar Plant Entire of A. F.

Rieser & Co. JULIET, Sept. 11.—The new electr light plant at the penitentiary is being pushed very rapidly, and in two months it will be completed. The state is taking charge of the various manufacturing in dustries inside of the walls. A. E. Rieser & Co., who have operated the harness ahop at the penitentiary for years, have sold out to the state which takes charge of it immediately. Rieser has worked 150 convicts, and owing to these had times they were glad to sell out, notwithstanding that their contract runs another year. The state buys their entire plant, machinery and stock, and will enter into the manufacture of goods the same as Rieser & Co., have done. This always has been a paying industry and the state can make a paying industry and the state can make a good thing cut of it.
